Cristian Mos

Vice President la Consiliul Județean Timiș
Timiș

Summary

After 4 years of volunteering in politics and local elections I stepped in local administration, from corporate to full political life.

In December 2020 I was elected Vicepres of Timiș county.

Previous experience:

I was leading the R&D Medical HW team from Romania. Leading a dynamic team that is involved from first discussions with costumers till delivering the final product to production. Team is involved in all stages of development starting with real research and innovation till development processes / steps of final products.

Designing medical devices for big pharma companies and start-ups. Deep involvement in introducing new technologies in the products and making revolutionary medical devices.

Started my work as a hardware engineer (electrical engineer) in Automotive, Continental (former Siemens VDO), in Transmission department. For some years designing transmission electrical control units starting from quotation until the start of production of the project.

During the collaboration with Continental I was teaching at former Siemens Technical Academy Romania (actual Technical Academy Continental) courses as: Electronics, Security Systems, Telecommunication and Signal Processing.

After 5 years in automotive I changed to Medical Electronics joining new created R&D Medical team at Flextronics Timisoara working with R&D Team from Milan.

Working as a hardware engineer (electrical engineer) designing medical devices for different medical pharmaceuticals customers.

Specialties: Product Prototyping.

Schematic Design and Calculation.

Automation and Automotive Module Development.

Schematic-level simulation.
PCB Layout design and Optimisation.
Electronic Tests.
FMEA.
